

Use your Crosby Flex Debit Card at the retail stores listed below and you will not need to submit a receipt!

IIAS (Inventory Information Approval System) technology makes it possible to track which of your purchases are considered eligible under your Medical Flexible Spending Account.

What this means:

- ✓ When you shop at a retailer listed below, items will be identified as either an “eligible” or “ineligible” FSA expense at the point of sale.
- ✓ Use your Flex Debit Card to pay for eligible items. You will be asked to use another payment method for ineligible items.
- ✓ If you do not use your card at an IIAS Certified retail store, your transaction will be denied.

Below is a list of major retailers that have implemented IIAS technology. **For a complete list of retailers, please visit CrosbyBenefits.com/ParticipantArea/FAQs.aspx.**
